

METAL FINISHING JOURNAL

January to December 1970

VOL 16

A

- Abrasive-belt machining, Wide, 107
- A.C.I.F. Exhibition, June 1970, 154
- Acorn Hardas, Hard anodizing at, 218
- Agitation on electrochemical reactions, Effects of, Part 1, 340
Part 2, 370
- Aluminium finishes, Quality control and the anodizing process for, 292
- Aluminium goes Metric, 220
- Anodizing and effluent treatment, 378
- Anodizing, Hard, at Acorn Hardas, 218
- Anodizing process for aluminium finishes, Quality control and the, 292
- Anti-corrosion coatings, 385
- Atlas Copco, Sweden, A visit to, 212

B

- Barlow-Whitney, Profile of progress, 111
- Berger J. & N. Paints Ltd. (Thermosetting powder coatings), 13
- Bright nickel process, New, 311
- British coil-coating line for Yugoslavia, 386
- BISRA and the metal finisher, 74
- BISRA - Open days at, 221
- British Non-Ferrous Metals Research Assocn., Metal Finishing at the, 217
- British Steel Corporation, Ebbw Vale, Electrolytic tinning of steel strip, 115

C

- Cebelcor's corrosion week 1970, 177
- Challenge of the Seventies - Metal finishing technology, The, 15
- Cleaning metal components, Degreasing and, 47
- Coating, Detonation gun, 83
- Coating, Detonation-gun and plasma-torch, 354
- Coating by flame spraying, Nickel, 20
- Coating, Powder - an expanding technology, 110
- Coatings, Anti-corrosion, 385
- Coatings, I.S.O. standards for electrodeposited, 39
- Coatings for rocket tanks, Fuel-compatible, 286
- Coatings for steel sheet - Non-tin, 4
- Coatings, Thermosetting powder, 13
- Coil-coating line (British) for Yugoslavia, 386

- Colour and safety, 43
- Composite metal - PTFE coatings, 312
- Conference, Electrolytic methods of forming and finishing, Birmingham University, July 1970, 287
- Conference, 9th International, on hot-dip galvanizing, Intergalva 70, Dusseldorf, 73, 106, 250
- Conference at Stratford, M.F.A., 352
- Continuous gauge measurement at Formica, 349
- Continuous wire galvanizing in New Zealand, 310
- Corrosion of motor vehicles, Preventing, 176
- Corrosion, Prevention of steel: the case for galvanizing, 145
- Corrosion week 1970, Cebelcor's, 177

D

- Degreasing and cleaning metal components, 47
- Design for electroplating - IMF award, 258
- Detonation gun coating, 83
- Detonation-gun and plasma-torch coating, 354
- Developments in engineering materials, 384

E

- Effects of agitation on electrochemical reactions —
Part 1, 340
Part 2, 370
- Effluent treatment, Anodizing and, 378
- Electrochemical reactions, Effects of agitation on —
Part 1, 340
Part 2, 370
- Electrodeposited coatings, I.S.O. Standards for, 39
- Electro-deposition of paints, 150
- "Electrolytic methods of forming and finishing" Conference, Birmingham University, 1970, 287
- Electrolytic tinning of steel strip, 115
- Electropainting plant, technology and applications, 179
- Electrophoresis as a fabrication technique, 322
- Electrophoretic paint deposition, 81
- Electroplating, Design for - IMF Award, 258
- Electroplating - its present position and future prospects, 135
- Electroplating in an ultrasonic field, 100
- Electrostatic application of oil to sheet steel, 12
- Engineering materials, Developments in, 384
- Exhibitions: A.C.I.F., June 1970, 154
- Explosive metal cladding, 377

F

Fabrication technique, Electrophoresis as a. 322
 Finishing luncheon club. 18
 Finishing News Review. 21. 53, 84, 117, 164, 191, 222, 260, 294, 325, 355, 387
 Finishing refrigerators. Modern methods of. 45
 Finishing. Trends in organic. 140
 Flame spraying. Nickel coating by. 20
 Formica. Continuous gauge measurement at. 349
 Forming and finishing. Electrolytic methods of. Conference. Birmingham University. 1970. 287
 France. Plating on plastics in. 289
 Friction-grip bolts. Galvanized steelwork with. 350
 Fuel-compatible coatings for rocket tanks. 286
 Future prospects. Electroplating its present position. and. 135

G

Galvanized steel in the seventies - Intergalva 70. 73, 106, 250
 Galvanized steelwork with friction-grip bolts. 350
 Galvanizing, the case for: prevention of steel corrosion. 145
 Galvanizing (Continuous wire) in New Zealand. 310
 Galvanizing. Research promotes use of. 77
 Gauge measurement at Formica. Continuous. 349

H

Hard anodizing at Acorn Hardas. 218

I

Increasing paint-shop productivity. 10
 Institute of Metal Finishing Annual Conference. Torquay, May 1970. 187
 IMF Award - Design for Electroplating. 258
 IMF Symposium. Printed circuits and the metal finisher. 51
 Intergalva 70. 73, 106, 250
 I.S.O. standards for electro-deposited coatings. 39

M

Marking machine. World's largest. 116
 Mechanized paint shop gives increased production. 285
 Metal cladding. Explosive. 377
 Metal components. Degreasing and cleaning. 47
 Metal finisher. BISRA and the. 74
 Metal finisher. Printed circuits and the. 51
 Metal Finishers in Torquay (IMF Conference 1970). 187
 MFA Conference. Stratford. 352
 Metal finishing at the B.N.F.. 217
 Metal finishing at Pyrene. 178
 Metal finishing: The next Decade. 132
 Metal finishing on show (ACIF Exhibition. June 1970). 154
 Metal finishing technology - the challenge of the seventies. 15
 Metric. Aluminium goes. 220
 Modern methods of finishing refrigerators. 45
 Motor vehicles. Preventing corrosion of. 176
 Multilayer systems for decorative purposes. Pretreatments and sequences in Part 1. 34
 Part 2. 68

N

New bright nickel process. 311
 New Zealand. Continuous wire galvanizing in. 310
 Nickel coating by flame spraying. 20
 Nickel plating from sulphamate solutions. Part 1. 169
 Part 2. 205
 Part 3. 234
 Part 4. 276
 Part 5. 279

Non-tin coatings for steel sheet. 4

O

Oil. Electrostatic application of to Sheet Steel. 12
 Open days at BISRA. 221
 Organic finishing. Trends in. 140

P

Paint shop. Mechanized, gives increased production. 285
 Paint shop productivity. Increasing. 10
 Paints. Electro-deposition of. 150
 Plant Processes & Equipment. 27. 65, 91, 123, 194, 225, 263, 299, 331, 361, 393
 Plasma spraying technology. 41
 Plasma-torch coating. Detonation-gun and. 354
 Plastics. Plating on. in France. 289
 Plastics. Plating on; the Shipley approach. 184
 Plating and its problems. Part 1. 200
 Part 2. 244
 Part 3. 270
 Part 4. 306
 Plating in the Seventies. 346
 Plating on plastics in France. 289
 Plating on plastics: the Shipley approach. 184
 Plating. Practical (Canning handbook). 204
 Polishing: techniques and costs. 132
 Powder coating - an expanding technology. 110
 Powder coatings. Recent developments in. 380
 Powder coatings - Thermosetting. 13
 PTFE coatings. Composite metal -. 312
 Practical plating (Canning handbook) 204
 Pre-finished materials. Producing in Sweden. 316
 Pretreatments and sequences in multilayer systems for decorative purposes Part 1. 34
 Part 2. 68
 Preventing corrosion of motor vehicles. 176
 Prevention of steel corrosion: the case for galvanizing. 145
 Printed circuits and the metal finisher (IMF Symposium). 51
 Producing pre-finished materials (Sweden). 316
 Pyrene. Metal finishing at. 178

U

Ultrasonic field. Electroplating in an. 100

V

Visit to Sweden. A (Atlas Copco). 212

W

Westward Ho! with Platelayer. 177
 Wide abrasive-belt machining of sheet metal. 107
 World's largest marking machine. 116

Y

Yugoslavia, British coil coating line for. 386

Z

ZDA - Intergalva 70 competitions. 386
